# 2014 Washington Prevention Spring Youth Forum: Presentations

**Maketa Wilborn, Master of Ceremonies, Activity Leader and Dynamic Speaker**

Maketa is the co-founder of New Wilderness Project, a youth-focused leadership and diversity program, and the northwest regional director of X8

Interactive Drumming. His passion for building intentional and engaged communities shines through his innovative and integrated approach, which involves creative expression and active engagement.

**Rusty Fallis, Assistant Attorney General and Janelle Guthrie, APR, Communications Director, *Four Loko's Wild Ride: An Update on Underage Drinking, Marketing to Youth and***

***the Law by the Attorney General's Office***

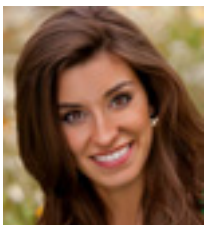

In 2010, nine Central Washington students were sent to the hospital after consuming the alcoholic energy drink, *Four Loko*, at a house party. Similar scenarios sprang up across the country—all linked to alcoholic energy drinks like *Four Loko*. Learn how *Four Loko* targeted youth and how prevention advocates, state leaders, youth, and the attorney general's office partnered to raise awareness and stop *Four Loko* from producing these dangerous drinks.

**Ms. Wheelchair America, Jennifer Lynn Adams, *The Power of Words***

Through this presentation, peer leaders will be inspired to realize their unique identity and purpose and the power they have to build each other up. Youth will walk away equipped with the understanding that they have the ability

to change the world through kind words and actions.

**Miss Washington 2013, Reina Almon, *Special Guest***

As a state titleholder in the Miss America Organization, she volunteers with a number of organizations, but focuses much of her work on promoting her platform "Sustain-Ability: Impacting

Tomorrow, Today" which focuses on revitalizing our environment and living "green" lifestyles.

**Anna Marie Dufault, M.Ed, Prevention Coordinator, *Changing for Good by Doing What's Best***

Simply telling youth not to drink or do drugs isn't enough...we need to look at the root causes and unique local decisions. Evidence-based

programming and strategies will be highlighted in this informative and interactive presentation.

**Scott McCarty, Prevention Systems Project Manager, DBHR, *Marijuana: The Good? The Bad? The Ugly?***

Marijuana is one of the most misunderstood drugs of our time. People often refer to their own experiences with marijuana rather than

what scientific data is teaching us. It is important to be aware of the changing laws and scientific discovery about a drug that is widely misunderstood in order to affect change in your community.

**Renee Hunter, Executive Director, TOGETHER for Drug Free Youth, presenting with Youth Coalition Team Members**

In 2014 six Wenatchee Substance Abuse Youth coalition members attended the CADCA conference in Washington DC. These youth are dedicated to educating their community on the dangers of substance abuse and bullying.
